ACTION PLAN FOR 2022

Precious you is a nonprofit organization with the purpose of providing professional knowledge (skills) for those who can no longer attend school to make them competitive in the labor market and generating incomes.

Our project is based on raising awareness of the situation of homeless and mostly addicted girls and young women as well as their children, who live a street life in Rwanda, by helping them till they become productive and they may support their families and their children.

We wish to provide assistance and education by providing them emergency aid and shelter for a successful rehabilitation and reintegration into society.

No	Project name	Planed activities	Target	Duration
1	Education and professional knowledge	School fees for 10 students	Street girls will have training which will take at least one year in order to help them to look for a job. Their children will attend school.	1 year
2	Anti-violence and drug abuse campaign	Organize campaigns against violence and drug abuse in youth and creating clubs against violence and drugs in youth, especially girls in different schools in Ruhuha sector.	Make sure that all students in public schools have information about violence and drugs.	1 year
3	Avoid homeless	With the partnership of the government we will help to go back to their families or relatives and these who don't have any of them the government will help as it is in TUBARERERE MUMURYANGO program.	Our target is that 20 street girls will go back to their families or having other families from the government as it is planned in one year.	1 year

All these programs will be executed with the partnership with Precious You Netherlands and they are the main partners that we have in all our activities.

In order for us to achieve our given target, we need enough support/funds because due to insufficient/limited funds we are unable to accomplish them all as we would like to while we have a lot of activities to do. And because of insufficient funds our office remains closed many days because of a problem of transport from where we live to the office in Bugesera District. We wish to attend the office every day but we go there once a week because of that situation. In case we can get support in transport we can increase our target.
